How to Delete your Command Center Pro Account

You can delete your Command Center Pro Account at any time. IMPORTANT: If you decide to reinstate it later, you might not be able to recover any original account information.

Step 1: Learn what deleting your account means

- You'll lose all the data and content in that account, like jobs and rooms created.
- You won't be able to use Command Center Pro App or the Command Center Pro Dashboard
- You'll lose access to active jobs and devices running.
- If devices are linked to your Command Center Pro account, you might need to unregister manually on each device.

    Important: If you are a company admin, once your account is deleted, every user will lose access to Command Center Pro.

Step 2: Review & download your info

Before you delete your account:

Review the info in your account. [Learn how to download job reports that you want to keep](#).

Step 3: Delete your account

    Note: If you are a company user (not Company Admin), deleting your account will not remove other users' access.

1. Go to the "[My Profile](#)" section of your Command Center Pro Dashboard.
2. Scroll to " **More options**".
3. Select **Delete your Command Center Pro Account**.
4. If you are a company admin, follow the instructions to delete your company account.

After deleting your company account, all users will lose access to Command Center Pro.
