

Double Shot

Deodorizer for organic odors on carpet, padding, upholstery, and hard surfaces

FOR PROFESSIONAL USE ONLY

Bio-enzymatic deodorizer concentrate

APPLICATION: Odor Control

DESCRIPTION

A “double shot” of odor-busting enzymes and long-lasting odor control! Multiple strains of biological concentrates that create enzymes that break down and digest offensive odors from urine, feces, vomit, sweat, and pet odors, while powerful pairing agents provide long-lasting odor control. Ideal for industrial use. Features an extended shelf life. Deodorizes organic odors on carpet, upholstery, and porous surfaces. Can also be used for general deodorization, or for sub-surface injection under carpet.

FEATURES

- Bio-enzymatic deodorizer concentrate
- Fast and effective
- Attacks and digests many types of odor-causing residues in the carpet
- Effective against urine, vomit, pet smells and other offensive odors
- Inject under the carpet for sub-surface odors

WHERE TO USE

Urine and other organic odor sources in carpet and fabrics. Can be injected to attack subsurface odor sources, or applied directly to carpet backing, pad, subfloor, and porous surfaces. Good for general deodorization.

USE DILUTION: Mix 1 part Double Shot with 4 parts water.

USE DIRECTIONS:

Pre-test: Pre-test in an inconspicuous location.

Mixing: Mix 1 part Double Shot with 4 parts water.

Application: Remove odor-causing surface soil when possible. Apply Double Shot directly onto the surface and contaminated areas. Use a coarse spray, keep sprayer near the surface, do not mist into air. Allow deodorizer to penetrate and contact the source of the odor. Allow dwell time for deodorization process. Can also be injected to attack subsurface odor sources, or applied directly to carpet backing, pad, subfloor, and porous surfaces. Rinse with Prochem’s All Fiber Rinse after deodorizing.

USAGE TIPS:

- Remove odor-causing surface soils whenever possible, prior to deodorizing.
- Do not mist or fog into the air or use product as an air freshener.
- Allow sufficient dwell time for deodorization process.
- Rinse after deodorizing.
- Do not use with chlorine bleach or with household or commercial disinfectants.
