

FourGuard Carpet Protector

Protects against spills, soil stains and oil

FOR PROFESSIONAL USE ONLY

Water-based carpet and upholstery protector

APPLICATION: Carpet and upholstery protector

DESCRIPTION

Protect one of your customer's biggest investments, their carpet. This advanced chemical formulation is designed to deliver superior protection against water-based and oil-based soils and reduce the damage caused by abrasion from dry soils on carpet and upholstery. Wear, age, pet damage and improper cleaning can damage factory-applied acid dye blockers. FourGuard replenishes these blockers to provide long-lasting stain protection from soft drinks, sports drinks, ink, coffee, tea, urine and more. Available in Ready-to-Use and 1:3 Concentrate that makes four gallons of ready-to-use protector.

FEATURES

- Protects carpets in four major ways
 - Protects against liquid spills
 - Resists dry soil - promotes more effective cleaning
 - Enhances stain resistance worn by traffic
 - Resists oil penetration
- Freeze-thaw stable

WHERE TO USE: Carpet and water-cleanable upholstery

USE DILUTION:

FourGuard Carpet Protector Ready to Use is ready to use – No mixing needed.

FourGuard Carpet Protector Concentrate: Mix 3 gallons of water into 1 gallon concentrate to make 4 gallons ready-to-use.

USE DIRECTIONS:

Pre-test in an inconspicuous location. Spray ready-to-use dilution onto damp, cleaned carpet at a rate of 1 gallon per every 400 sq. ft. Spray using a light, even stroke, then repeat 90° to first application for even coverage. Brush or rake to spread protector evenly and align carpet pile for drying. Keep people and pets off carpet until dry.

COVERAGE: One ready-to-use gallon protects approximately 400 square feet. Coverage will vary depending on thickness and absorbency of carpet or upholstery.

USAGE TIPS:

- Add water to concentrate, not concentrate to water.
- For dry carpet, mix 1 gallon of water into 1 gallon of FourGuard Carpet Protector RTU (1:1 dilution), apply 1 gallon per 200 sq. ft.
- Do not spray on furniture, hard surface floors, or walls. Immediately wipe off overspray with a damp cloth. Do not store protector in sprayer.
- Avoid freezing, but if frozen, thaw at room temperature. Do not heat. Shake before using.
