

Protimeter Quikstick Sensor

Replacement QuikStick Sensor for MMS firmware v. 3.15 and above and all Hygromaster 2 units.

FEATURES

- Note: The Quikstick replaces the Humistick and Hygrostick probes on certain meters only. To determine if your MMS meter is compatible with the Quikstick, follow these instructions:

1. Press the power button while pressing the Back button.
2. The meter will display a firmware version number.

The Quikstick is compatible with firmware version 3.14 or higher.
