

Protimeter Aquant

Locate moisture quickly and accurately. Using Protimeter's non-invasive radio-frequency technology, identify moisture in a wide range of materials. Detect moisture up to 0.75 inches (20 mm) below and behind surfaces.

FEATURES

- Rugged, restoration-ready construction
- Instant readings - large easy-to-read backlit display
- Non-invasive system measures moisture up to $\frac{3}{4}$ in. (20mm) below the surface – not affected by surface moisture.

SIZES • OPTIONS

- 100220 (F523): One unit

SPECIFICATIONS

- **Display:** Backlit LCD
- **Pinless (non-invasive RF) measurement range:** 60–1000 (relative). Measures up to up to 0.75 in. (19 mm) deep.
- **Power:** One 9V battery (included)
- **Weight (meter with battery):** 7 oz. | 195 gm
