WHERE TO USE

Routine deodorizing: Food spills, garbage odors, animal odors, mold and mildew odors.

Restoration deodorization: Smoke and fire odors, mold and mildew odors from floods and sewage backup. Use before, during and after restoration to control odors.

HOW TO USE

Pre-test: Pre-test in an inconspicuous location area.

Mixing:

Routine deodorizing: Mix ½ to 1 ounce per gallon of water.

Fire and flood restoration: Mix 1 to 2 ounces per gallon of water, depending on severity of odor.

Deodorizing: Apply directly onto the odor source, allow dwell time for effective deodorization. May be used before cleaning for initial odor reduction, or for residual deodorization after cleaning has removed the odor source.

Tip: Compatible with most detergents for deodorizing while cleaning.

Add ½ ounce per gallon of detergent solution

Add 6 ounces to 5-quart injection sprayer

Add 1 quart to 5 gallons of truckmount concentrate.

ODOR TARGET SUGGESTIONS:

All fragrances of Fluorosil Odor Neutralizer have the same active odor neutralizing effectiveness and may be used interchangeably according to your customers fragrance preferences. However, psychological studies have shown that some fragrances are more effective in covering certain odors while the odor neutralizer ingredients work on the underlying odor.

Floral: Residential properties for a warm homey feel

Citrus: Commercial properties for a clean, professional atmosphere

Cherry: Fire and smoke odors, restroom odors

Tropical Breeze: Food and beverage odors; restaurants, lounges

Apple: Body odors, sweat, vomit; gyms, frat house, apartments, rentals

Mint: Fresh “holiday” scent. Also effective at covering water/sewer damage and musty odors.
