

Power Strike (S787)

Super strength pre-conditioner for carpets

FOR PROFESSIONAL USE ONLY

High-pH powder prespray for heavily soiled properties

APPLICATION: Prespray

DESCRIPTION: This high-pH, quick-dissolving powder carpet prespray is tough on carbonaceous soils such as red dirt, sand, dust and clay. Fast-striking surfactants and soil lifters for a short dwell time and powerful soil suspension! Use on synthetic fiber carpets in heavily soiled apartments, rentals, dorms, offices, clinics, health care facilities and more. VOC-compliant in all 50 states.

Radical super-strength pre-conditioner puts more cleaning power on the carpet to remove heavy soils FAST! High-solvent, alkaline formula "strikes" heavy grease and grime without extended dwell time.

FEATURES:

- Serious power for serious soil
- Ultra-concentrated blend of alkaline surfactants and solvents
- High-pH formula easily removes heavy soil and grime
- No extended dwell time necessary

WHERE TO USE: Use on commercial and heavily soiled synthetic fiber carpets in heavily soiled apartments, rentals, dorms, offices, clinics, health care facilities and more.

USE DILUTION:

Pump Sprayer: 2 scoops per gallon

Power Injection Sprayer (1:8 model): 6 scoops per 5 quarts

USE INSTRUCTIONS:

Pre-test carpet for colorfastness in an inconspicuous location. Not recommended for stain-resistant carpet.

Mixing:

PUMP SPRAYER: Mix 2 scoops per gallon of **hot** water. Mix until completely dissolved.

INJECTION SPRAYER (high pressure 1:8 tip): Mix 6 scoops per 5 quarts of **hot** water. Mix or shake thoroughly until completely dissolved.

1. **Vacuum** carpet to remove loose surface soil.
2. **Prespray** soiled carpet. Allow 10 minutes dwell time. Do not allow to dry. Agitate with carpet rake on stains and traffic lanes.
3. **Extract** carpet with Dry Slurry, Liquid Slurry or All Fiber Rinse, following label directions.

COVERAGE: Makes approximately 30 ready-to-use gallons. One ready-to-use gallon cleans approximately 400 square feet. Coverage will vary depending on soil level and thickness and absorbency of carpet.

USAGE TIPS: High-pH prespray for commercial, non-stain-resistant carpet. Dilute powder with hot water. Does not require the extended dwell time of enzyme presprays. For extremely soiled areas, allow extra dwell time and agitate if needed.
