

## Enzyme Rescue

Deodorizer for organic odors on carpet, padding, upholstery, and hard surfaces

FOR PROFESSIONAL USE ONLY

### Bio-enzymatic deodorizer concentrate

**APPLICATION:** Odor Control

**DESCRIPTION:** Enzyme Rescue attacks organic and biological odors with a powerful blend of pairing agents and multiple strains of biological concentrates. Creates enzymes that will break down and digest offensive odors such as urine, feces, vomit, sweat and pet odors. This economical, professional-grade formulation is designed with premium ingredients for industrial use, with an extended shelf life and formulated for long-lasting odor control. Powerful bio-enzymatic action gets to odors at their source, using today's most effective and time-tested biological strains. Handles tough odors in commercial bathrooms, even garbage cans and dumpsters, yet is safe for household use to deodorize and freshen carpets and upholstery fabrics. Inject under the carpet for sub-surface odors.

#### FEATURES

- Professional strength deodorizer concentrate for all organic odors
- Bio-enzymatic action attacks and digests tough odors at the source
- Contains the latest biological technology, for urine and other problem odors
- Odor counteractants molecularly modify offensive odor sources
- Safe for use on carpet, hard surfaces and water-cleanable upholstery

**WHERE TO USE:** Effective on urine, food spills, garbage odors and other organic odor sources. Use on nylon and olefin carpet, synthetic water-cleanable upholstery, and hard surfaces. Apply directly to odor sources in upholstery, carpet, pad, subfloor, tile, concrete, and other surfaces.

#### USE DILUTION:

Carpet Deodorizing and Spotting: Dilute 1 part Enzyme Rescue with 2 parts water

Portable: Add 4 oz per gallon of cleaning solution

Truckmount: Add 1 quart per 5 gallons of truckmount concentrate

#### USE DIRECTIONS:

Pre-test in an inconspicuous location.

**Hard Surface Deodorizing:** Dilute 8 ounces per gallon with cool water.

**Carpet Deodorizing and Spotting:** Dilute 1 part Enzyme Rescue with 2 parts water. Apply to spots and carpet stains. Allow 30 minutes dwell time. Extract carpet with All Fiber Rinse or Dry Slurry after deodorizing. Repeat application as necessary. Can be used full strength on problem areas when needed.

**Carpet Cleaning:** Dilute 4 oz per gallon with diluted cleaning solution, to deodorize carpeting during overall carpet cleaning. For truckmount use, add 1 quart Enzyme Rescue per 5 gallons of concentrated cleaning solution.

**Water-Cleanable Fabric Deodorizing:** Dilute 4 oz per gallon with cool water. Spray fabric lightly. Do not over-wet. Allow 30 min. dwell time. Rinse/extract with a cleaning solution appropriate for the fabric.

**USAGE TIPS:** Remove odor-causing surface soils whenever possible, prior to deodorizing. Do not mist or fog into the air or use product as an air freshener. Allow sufficient dwell time for deodorization process. Rinse after deodorizing. Do not use with chlorine bleach or with household or commercial disinfectants. Not for use on wool.
