## ZOOP!

Triple-strain blend of high-performance, fast-acting enzymes for superior removal and deodorization of tough protein spots such as blood, gravy, coffee creamer, baby formula, fish, eggs and other organic spills. ZOOP! spotter has a mild pH and can be used on synthetic and cellulosic carpet and upholstery fibers such as nylon, olefin, polyester and cotton, as well as a variety of hard surfaces.

Review these [Tech Tips](#) for expert guidance on spot and stain removal.
