Fluorosil® Odor Neutralizer - Cherry

This versatile, mild-pH, non-ionic blend of odor counteractants, pairing agents, and masking agents meets the specifications for use on 5th generation stain resist carpet and can be safely used on most hard surfaces such as tile, stone, and vinyl floors and walls. Fluorosil can be used as an additive and is compatible with most cleaning presprays and extraction solutions, or can be diluted and used as a post-mist after source removal and cleaning. Formulated for residential, commercial, and restoration use, and effective enough to neutralize offensive pet and body odors as well as water, fire, and smoke damage related odors.
